WORK EXPERIENCE

Web Developer Intern 02/2026 – 05/2026
3D-Side Mont-Saint-Guibert, Belgium
Worked on Customize, a web platform for surgical planning, within a team communicating primarily in English.

- Set up TypeScript tests using Vitest, including browser tests through Playwright, and integrated them into GitLab CI to run on every merge request.
- Refactored Vue.js components for 2D and 3D visualisation to match interface controls to the supported interactions.
- Updated the Docker and Vite configuration to test a shared package locally without publishing a new version.
- Fixed bugs, documented verification steps and addressed code review feedback.

Student Jobs 2020 – 2025
Colruyt Group and CHU Helora Nivelles, Belgium

PROJECTS

Scrimflow 2026
Final-Year Project
TypeScript, React/Next.js, Hono/Bun, PostgreSQL, Drizzle

Web application for managing Overwatch teams, organising practice matches and tracking results.

- Developed the frontend, API and data model, including account, session and permission management.
- Integrated Gemini to prefill match results from screenshots for users to review and confirm.
- Configured deployment using Docker Compose and Caddy.

Fisheye 2025
EPHEC Team Project
TypeScript, Node.js, Express, PostgreSQL, Prisma, MQTT

Connected doorbell and display system for notifying teachers of visitors and showing teacher availability.

- Developed the backend, including a REST API, data model and MQTT communication with devices.
- Implemented MQTT broker reconnection, topic resubscription and message retries.

EDUCATION

Bachelor's Degree in Computing, specialising in Information Technology 2022 – 2026
EPHEC Louvain-la-Neuve, Belgium
Graduated in June 2026.

React Native Mobile Development Summer School 07/2025
Seneca Polytechnic Toronto, Canada
Developed Bookworm, a book tracking and sharing application, in an international team using React Native and Expo.

TECHNICAL SKILLS

Programming languages: TypeScript, JavaScript, Python, SQL

Frontend: React, Next.js, Tailwind CSS

Backend and databases: Node.js, Express, REST APIs, PostgreSQL, Prisma, Drizzle

Testing and tools: Vitest, Playwright, Git, GitLab CI, Docker, Linux

LANGUAGES

French: Native

English: C1, assessed through eLAO (Forem, August 2026)
